Community Health Assessment Data Update

2015.07

## Westchester County Population Update, 2009-2013

### In this issue:

- Municipality Population
  - By Age, Sex
  - By Race/Ethnicity
  - By Age & Sex, Race/Ethnicity
  - By Educational Attainment
  - By Educational Attainment & Sex, Race/Ethnicity
  - By Country of Origin
  - By Language Spoken at Home
  - By Family Structure
  - By Employment Status, Family Income, Poverty Status & Sex, Race/Ethnicity
  - By Housing
  - By Commuting

### Project Directors:

Jiali Li, Ph.D. Director of Research & Evaluation  
Planning & Evaluation

Renee Recchia, MPH, Acting Deputy  
Commissioner of Administration

### Project Staff:

Megan Cea, MPH, Medical Data Analyst

Stan Cho, MPH, Medical Data Analyst

Graphic Design:

# Foreword

The Westchester County Department of Health (WCDH) plays a leading role in promoting health, preventing disease, and prolonging meaningful life for Westchester County residents. WCDH monitors and controls the spread of communicable diseases, monitors and regulates air and water quality, enforces the state and local sanitary code, promotes local public health activities, and assures the availability of community health services.

To comply with New York State Public Health Law, WCDH in 2013 completed a ***Community Health Assessment (CHA) 2013-2017*** to describe the health status of Westchester County residents, identify existing gaps and health care barriers, assess the availability and accessibility of health care services, and specify public health priorities in the County. This document is intended to supplement the 2013-2017 CHA with updated regional population sizes and population structures that were not available in the past. Data are extracted from the 2009 to 2013 Annual American Community Survey (ACS) conducted by the United States Census Bureau.

The ACS is an ongoing nationwide survey designed to provide communities with reliable and timely demographic, social, economic, and housing data for the nation, states, congressional districts, counties, places, and other localities every year. It has an annual sample size of about 3.3 million addresses across the United States (and Puerto Rico) and is conducted in every county throughout the nation (as well as in Puerto Rico).

<b>Overcrowded Housing<sup>5</sup></b>	107	1.4			

Source: US Census Bureau, American Community Survey, 2009-2013.

<sup>1</sup> Hispanic may be of any race, and are included in the race categories.

<sup>2</sup> Educational Attainment was assessed for the population age 25 and over.

<sup>3</sup> Family structure and income were assessed for the civilian population living in households. Median income was not available for certain municipalities.

<sup>4</sup> Employment status was assessed for the population age 16 and over.

<sup>5</sup> Overcrowded housing is defined as any occupied housing unit with >1.0 persons per room.

<sup>6</sup> Alternate modes of transportation include public transportation, bicycling, walking, or telecommuting.

Source: US Census Bureau, American Community Survey, 2009-2013.

<sup>1</sup> Hispanic may be of any race, and are included in the race categories.

<sup>2</sup> Educational Attainment was assessed for the population age 25 and over.

<sup>3</sup> Family structure and income were assessed for the civilian population living in households. Median income was not available for racial and/or ethnic groups.

<sup>4</sup> Employment status was assessed for the population age 16 and over.

<sup>5</sup> Overcrowded housing is defined as any occupied housing unit with >1.0 persons per room.

<sup>6</sup> Alternate modes of transportation include public transportation, bicycling, walking, or telecommuting.

<sup>1</sup> For regional planning purposes, municipalities are grouped into six geographic health planning regions.

<sup>2</sup> A town may or may not include incorporated villages located within the town boundary. When it does not include any incorporated villages within the town boundary, the statistics refer to the town as a whole (T). When it does include incorporated villages within its boundary, the statistics refer to the unincorporated area within the town boundary (TOV). The entities of Harrison, Mount Kisco, and Scarsdale are both towns and villages (V/T). The land in two towns, Pelham and Rye, has all been incorporated into separated villages. Therefore, no data are reported for these two towns.

<sup>3</sup> The Village of Briarcliff Manor and the Village of Mamaroneck are split between two towns. Briarcliff Manor is within the Town of Ossining (92% of its surface area) and the Town of Mount Pleasant (8% of its surface area). The Village of Mamaroneck is within the Town of Mamaroneck (63% of its surface area) and the Town of Rye (37% of its surface area).
